COMMERCIAL AND FINANCIAL

Board of Trade Operators Were Anxious to Realize Yesterday.

START IN WHEAT WAS NOT VERY RAPID

Corn Was Less Active, but Nervous and Feverish All Day, with Fluctuations Covering a firief Range -Stocks and Bonds.

CHICAGO, Aug. 10 .- Board of Trade operators were anxious to realize today, and as a result all the grain markets closed with a loss. September wheat finished 40 lower, September corn was 1c lower, and September oats 1%c lower. Provisions were stronger and closed at an advance all around.

In wheat there was not a great deal doing at the start, but later the market became quite active. The feeling was on the whole weaker and lower prices ruled. There was very little news at hand that had any particular effect on values, the principal weakening influence being the withdrawal of the support which corn has had on the market, that cereal selling down, and wheat sold off in sympathy. There was a temporary advance after the first decline, due to the covering by Pardridge, who purchased probably 750,000 bu. The market was sur-rounded by a good many bearish influences. the liberal receipts, lower outside markets, less demand and the break in corn, all comless demand and the break in corn, an obli-bined to make the situation easier. Initial trades were at the same price to 50 over the final figures of yesterday at 565c for September, and sold off from 50 to 30 c, rallied from 50 to 30 c, eased off ic, ad-vanced from 50 to 30 c, changed some, ruled steady and closed with September at 565c. Corn was less acive, but nervous and feverish all day, with fluctuations covering 14c to 15c range. The feeling was rather easier with more disposition on the part of longs to realize. The country was moderately active on both sides of the market, some realizing and others increasing their holdings. There were strong efforts at the start on the part of the local professionals to depress prices, but there were many buying orders on hand, the continued drouth causing interior longs to adhere more firmly to their resulting and the market did not to their position, and the market did not respond to the selling pressure for some time. There were light showers around the edge of the western and northwestern part of the corn belt, but none in the principal states. The Washington forecast did not predict

any rain for the west, though cooler weather was prophesied. Outside markets were steady and Liverpool firm. The market opened more settled than for some days back, with the initial transactions 14074c back, win the final figures of yesterday, September starting at 56½c, and sold off %c for May, and then rallied 1c, eased off 1%c, advanced 1%c. declined %c. changed some, and closed with September at 55%c. Oats were active and easier with corn, and

on free selling. September, after a range of 1½c, closed ic lower at 31½c. Liberal buying orders and free buying Liberal buying orders and free buying by local operators gave the provision market a firm tone. An active business was transacted. Compared with last night September pork is 5c and January 32½c higher; September lard 12½c higher and September ribs 7½c higher.

Freights slow at %@1c for wheat, and %c for corn to Buffalo, and 2½c for wheat

to Kingston.

\$5649c; California, \$1.50. TROPICAL FRUITS.

A California authority claims that one of the latest inventions of interest to fruit growers is a machine for poishing oranges. It consists of two cylinders covered with the very best of sheep-skin, care being taken to get only those skins very heavily covered with wool. The cylinders revolve in opposite directions, thus turning the orange over and over, so that every particle of the surface gets well polished. The oranges are fed through a hopper, and the polisher can be so arranged that the oranges will pass on the sizer without extra handling.

CHICAGO, Aug. 10.—The Earl Fruit company solil California fruit at auction this morning, realizing prices as follows: Rartiett pears, refrigerator cars, 11.2647.35; ventilator cars, 350 lbc. Peaches, Early Crawford, 75036; Tuscan

Wool Market.

Wool Market.

BOSTON, Aug. 10.—The American Wool and Cotton Reporter says of the wool market: The market today continues to be strong at an advance of about 2c above the rates of three weeks ago. There have been some good-sized sales made since the 31st uit. The demand is quite equal to, and similar in character to that noted a week ago. New faces have appeared among the buyers who are coming in since last writing. The sales would have been even larger if stocks had been offered; dealers west are out of sight; dealers in fleeces are very firm and stock is scarce. Very few wools are coming from Ohio; they are holding out there for higher prices. The demand for all sorts of fleeces is as good, if not better, than during the immediately previous week; XX wools with delaine in are worth 22c, and XX is largely taken at 21c. The character of the demand continues to be quite varied; unwashed and unmerchantable have been taken in considerable quantities at 14½ftic. A comparatively large quantity of one-quarter, three-eighths and one-half blood has been purchased at 14£ftic and large quantity in the aggregate of miscellaneous fleece, comprising a number of sorts of washed and unweashed combing, at 12½ftile. Altogether, the sales of fleece wool since the list uit, exceed 800,000 lbs. The demand for Texas has been fairly good, also for California, Eastern Oregon has been in good request. Territtories have been in active demand. Transactions in these wools during the past week have been generally made on the scoured basis of from 20c to 315c for medium; 33c to 35c for fine; possibly half a cent better for choice wool of this grade. The sales of the week amount to 4,23,000 lbs. do mestic and 311,000 lbs. foreign, making a total of 5,23,4000 lbs., against 75,140,100 lbs. a year ago. The sales since January 1, 1854, amount to 83,-25,185 lbs., against 75,140,100 lbs. a year ago. The sales since January 1, 1854, amount to 83,-25,150 lbs. for the corresponditing week last year. The sales since January 1, 1854, amount to 83,-25,1

STOCKS AND BONDS.

There Was Less Animation on the Exchange than Usual. NEW YORK, Aug. 10.-There was less animation on the Steek exchange today than on the preceding days of the week. Trading was restriced by the unfavorable turn of affairs at Washington regarding the tariff, which coming on top of a reported agreement between the senate and house gave the traders a setback which induced many of them to dispose of their holdings. and which made others cautious about ex-tending their lines of long stock. London was in the market both as a buyer and seller, but did not largely enter into the transactions. Another unsettling factor of the specula ive situation was the uncertainty prevailing as to the government crop re port, to be issued late in the afternoon This report was looked forward to with more than the usual interest, in view of the many rumors which had been affoat of serious crop damage, chiefly to corn. At the open-ing of the exchange this morning prices showed a fractional decline from the closing figures of yesterday, but quickly recovered the greater part of the losses. The im-provement, however, was merely temporary, and the market became unsettled, the tone of the dealings gradually becoming heavy under moderate selling. Shortly before noon the market showed signs of improvement and prices moved up a fraction, but at about 12:45 o'clock a drive was made upon Chicago Gas, which sent that stock down and caused a sympathetic decline in the general list. During the rest of the day the speculation was equally unsettled, but was dull and with pressure to sell. During the last quarter hour the trading was fairly active and the endency of the figures was upward, the mar

The bond market was strong.

The Evening Post says: The stock market enjoyed a further mild stimulus to conjecture in the senate parliamentary squabble. the day's only novel scene in the Washington panorama. But no one on Wall street had the least idea of what this signified; hence it could hardly be said to have influenced prices. Generally, despite the early profit taking, prices were firm, with some rather interesting advances. The sentiment exhibited now for several days was again the

cet closing steady to firm in the main.

ruling force. The Evening Post's London cablegram says: Stock markets become quieter as the settlement approaches, but the tone remains good throughout. In Americans there was further improvement today, but the close was nearly 1/2 a point under the best on profit taking. There was a firm under-tone, however, and stocks are believed to be scarce. Atchisons were strong. It is be-lieved here Mr. Little's report discloses the worst, and President Reinhart's reported resignation outweighs the bad feeling created by Mr. Little's figures. Official Indian finance are more favorable than ticipated. The council is selling drafts anticipated.

The financial position causes much

OMAHA 'IVE STOCK MARKET

Receipts Continue Liberal and Decidedly in Exce s of the R quirements.

TRADE IN CATTLE REMAINS STEADY

Little or No Change Noted from Day to Day - Hogs Still Flat, with Many

Buy Hogs Still Flat, with Many Rough and Undestrable Aulimals Left Over.

FRIDAY, Aug. 10.

FRIDAY, Aug. 10.

FRIDAY, Aug. 10.

The receipts today footed up about 1,000 cattle, 8,450 hogs and 113 sheep as against 783 cattle, 5,771 hogs and 495 sheep on the corresponding day of last week. For the week thus far there have been received 11,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 56,000 hogs and 2,962 sheep, as against 7,600 cattle, 50,211 hogs and 1,678 sheep for the corresponding days of last week. From this it will be noted that while there has been a gain in cattle receipts of hogs. The decrease in the receipts of hogs. The decrease in the receipts of hogs would appear to be due to the fact that the packers have not been buying very much the packers have not been buying very much the past week owing to the strike, and that the unfavorable reports have caused shippers to hold back their hogs.

CATTLE—The offerings of corn fed cattle were not large, but there were a few right good steers among them. The market did not show much change as compared with yesterday. Both packers and shippers were in the market for a few cattle, One bunch of good 1,451-b, steers brought \$4.70. There was a moderate deniand for good butchers stock and the market on such was fully steady at yesterday's prices. Common and trashy stuff continues to be in light demand and prices are as low as at any time. There are the static stock and the market for a few cattle, one bunch of good 1,451-b, steers brought \$4.70. There was a moderate deniand for good butchers stock and the market for a few ca

and prices are as low as at any time. There was very little doing in the line of stockers and feeders. There are a good many cattle of that description in the yards, but the demand is extremely light. The country ap-pears to have stopped buying almost en-tirely, due to the continued dry weather and the scarcity of feed. Prices are very low, \$2.25 to \$2.50 buying good feeders. Representative sales: DRESSED BEEF.

NEBRASKA WESTERNS. 198 cows...... 750 \$2 25 HOGS-In addition to the fresh receipts there were about 5,000 hogs held over from yesterday, making a total of not far from 14,000 on sale. A good many of the holdvers were extremely light and rough stuff that no one appears to want, and some of these hogs have been in the yards two or three days at the least. The packers were doing a little more than on yesterday, which helped out the market somewhat. The general market, however, was a shade lower than yesterday. Good to choice hogs sold mostly at from \$4.75 to \$5, while the fair to good m xed loads brought all the way from \$4.50 to \$4.70, with the common trashy stuff from \$4.25 down, and had to sell. At the close there were a good many of the com-mon loads still unsold. Representative

CHICAGO LIVE STOCK MARKET. There Was Lack of Firmness in the Cattle

Market.
CHICAGO, Aug. 10.—There was a lack of firmness in the cattle market. The demand was less active than earlier in the week, eastern orders having been pretty well filled, and buyers were little inclined to pay former prices. That was even true of the choicer grades, while for any thing not answering to the description of "good" they inserted upon concessions. And they generally got them, for the offerings were in excess of the average for a Friday, and there

\$4,50. showing little change from the prices current a week ago.
Receipts—Cattle, 9,000 head; calves, 400 head; hogs, 20,000 head; sheep, 5,000 head.
The Evening Journal reports;
HOGS—Estimated receipts for today, 20,00 head; receipts yesterday, 20,17 head, shipments vesterday, 10,702 head; left over, about 11,000 head; quality rather poor; market slow, with prices for lower, sales ranged at \$1,5075,30 for light; \$4,7074,90 for rough parking; \$4,3085,35 for mixed; \$6,50975,30 for heavy packing and shipping lofs; pirm, \$4,4094,90.
CATTLIS—Estimated receipts today, 2,500 head; receipts yesterday, 13,183 head; shipments yesterday, 5,409 head; market slow, but prices stenday. steady.

SHEEP-Estimated receipts today, 5,000 head; receipts yesterday, 10,638 head; shipments yesterday, 1,353 head; market steady.

Teports of Pamage to Corn Effect the Marlet in All Lines.

IRON AND STEEL OUTPUT INCREASING

Prices Are Weaker-Demand for Wool

Good, but the Supply is Largely

Held in First Hands. NEW YORK, Aug. 10.-R. G. Dun & Co.'s weekly review of trade tomorrow will say: The advance in corn discloses a general becrop has been so great as to affect materially the traffic of railroads, the demand for manufactured products and the cost of meats for the coming year. Unless the markets deceive and are entirely deceived our country will have to face a real calamity in the loss of semething like 500,000,000 bushels of corn, and this loss consumers have to share through the advance of 14 cents in two weeks and 9 cents since Fri-

that the loss may prove less serious, but at current prices 1,500,000,000 bushels would ost as much as 2,000,000,000 would have cost a fortnight ago. Wheat has risen 316 cents in the two weeks and 2½ cents during the week, although western receipts have been 5,223,128 bushels, against 3,163,694 last year. Atlantic exports are still about half as large

day of last week. Neither official nor un-

official statements as yet preclude the hope

bushels, against 3,163,694 last year. Atlantic exports are still about half as large
as a year ago, 1,30,485 bushels, against
2,734,884 bushels last year.

Pork products are a little stronger, as is
matural. Cotton has twice rises and again
declined a sixteenth with increasing prospects of a very large yield, closing without
change for the week.

The iron and steel manufactures record
a great increase of nearly 36,000 tons in
weekly output in July, and the production
is 115,256 tons weekly, about 11,000 tons less
than in April, but 8,000 tons more than a
year ago, when the prostration half nearly
reached its worst. The decrease in unsold
stocks was only 6,127 tons for the month,
showing a consumption in manufacture not
quite equal to the present output. Prices
sustain this view, having been changed
only in the direction of weakness, the disappointing demand for finished products
being still the main factor.

The business in boots and shoes is strong
and healthy, though consplenously confined
to medium and low priced articles, such as
75-cent shoes for men and 55 to 60 cents for
women. But shipments from Boston have
been, in two weeks, 166,636 cases, against
122,826 last year.

The sales of wool would have been larke,
according to the reports from the different
markets, if there had been sufficient stocks
available, but amounted to 7,622,600 pounds
at the three eastern markets, against 9,235,
700 pounds two years ago. Country holders
of wool do not at present appear anxious to
let somebody else speculate on its price and
are said to be keeping back supplies quite

let somebody else speculate on its price and are said to be keeping back supplies quite generally.

The failures for the five weeks ending Au-The failures for the five weeks ending August 1 showed liabilities of \$12,141,713, of which \$5,525,594 were of manufacturing and \$5,229,247 of trading concerns. The failures during the past week have been 251 in the United States, against 391 last year, and fifty-four in Canada, against twenty-five last year.

BRADSTREET'S TRADE REVIEW.

Business in Manufacturing Lines Shows Tendency to Improve. NEW YORK, Aug. 19.—Bradstreet's to

morrow will say: Evidence continues to accumulate that the earlier portion of July witnessed the lowest point in the ebb of the commercial tide in the reaction after the moderate revival in the spring. The practical cessation of various industr' \ disturb ances of the year has emphasized the tendency to improvement reported by telegraph from leading manufacturing and commercial centers this week. A further indication of the tendency to improvement is seen in the week's advance of 50 cents per ton for steel billets and the fact that the domestic wool markets today are more in favor of the seller than they have been for a year and that wool is firm at the 2 cents advance scored in the last few weeks. Refined sugar is '5 cent higher, possibly for reasons not directly connected with questions of demand and supply, but prices of pig from at St. Louis are higher and for cotton are 1-16 cent up on reports of damage to the crop and the improved feeling in commercial circles south. Leaf tobacco and leather are both firm, with an active demand, the tendency of prices being upward, and the recent destruction of lumber by fire at Chicago has steadled quotations. Panic and unyeasoning speculative interest in Indian corn has put the price up nearly 8 cents a bushel this week, 25 cents above low water mark for the year.

Bradstreef's telegrams from those in a position to know as much as can be learned in the great corn growing sections are adcenters this week. A further indication of

mand abroad and at home having expanded noticeably.

American and European total available supplies of wheat decreased 4,100,000 bushels, net, during July, against a decrease of only 1,200,000 bushels in July a year ago and 624,000 bushels in July, 1892. Last month's sharp failing off in the world's stocks is due to an unusually heavy July decrease in European supplies, and those affont therefor, because stocks at home increased exceptionally last month. Exports of wheat from the United States and Canada, both coasts, this week agreeate 3,415,000 bushels, against 2,977,000 bushels last week and 5,008,000 bushels in the same week a year £50. Consumption Not Up to the Output and

AUGUST CROP REPORT.

Reports from the Corn Belt Make a Very Poor Showing.
WASHINGTON, Aug. 10.—The August report of the statistician of the Agricultural department shows a decline in corn of nearly 26 points since July 1, the average for the entire breadth being 69.1, against 95 for the month of July. The condition for

for the entire breadth being 69.1, against 55 for the month of July. The condition for August, 1823, was 87.

The arreat decline is due almost whofly to the extensive and unprecedentedly severe drouth that set in since the last report and to the hot, dry winds that swept ever the states of Nebraska, Kansas and towa and parts of other western states. In some localities the crep has been injuried beyond recovery, while in others timely rains would go far toward assuring fair yields.

The averages for the principal states are: Ohio, 79; Kentucky, 80; Indiana, 88; Illinois, 75; Iowa, 45, Missouri, 82; Kansas, 49; Nebraska, 33; South Dakota, 19.

The condition of spring wheat has fallen since the last report 13 points, being 67.1, against 68.4 for the month of July. The condition by states is as follows: Wisconshi, 79; Minnesota, 76; Iowa, 82; Kansas, 39; Nebraska, 41; South Dakota, 29, North Dakota, 75; Washington, 83; Oregon, 95.

The advices as to winter wheat from correspondents and threshers indicate a good yield of excellent quality.

The condition of oats has declined 1.2 points since the date of the last report, being 76.7, against 719 in July. The condition for August, 186, was 78.3.

The condition of spring rye is 79.8, against 81.71 last month and 78.5 last year.
